R. No. 344-1/B.

Station Madras, *Dated the* 30th July 1931.

From (Name) Major A.M.V. Hesterlow, M.B.,Ch.B.,B.Sc, D.T.M & H., I.M.S.,
(Designation) Ag. Director of Public Health, Madras.

To The Secretary to the Government of Madras,
Local Self Government (Public Health) Department.

Sir,

Reference: Government U.O. memorandum No. 22983-1E.P.H. dated 23rd July 1931 regarding part II Schemes.

I have the honour to state that none of the part II schemes relating to this department could be suspended nor could the expenditure on account of them restricted at this stage, - except in regard to the improvements to the Bagavadhi channel which has been sanctioned as an anti-malarial measure in Bellary District. Even as regards this scheme, it may not be advisable to suspend the operations if they had been

p.t.o.

commenced, as the money so far spent on the works would be a sheer waste unless the works are carried on to a completion. The Chief Engineer, Public Works Department is however being addressed (copy of letter enclosed) to let me know the stage at which the matter is at present; and if the operations have not been so far commenced, he would be requested not to commence them at all.

I have the honour to be,

Sir,

Your most obedient servant,

Bellary Collector's Office,

Camp- Siruguppa, 13-8-1931.

17 AUG'

From

A.M.A.C.Galletti Esq., M.A., I.C.S., 31860

Collector of Bellary.

To

The Secretary to Government,

Local Self-Government Department,

M A D R A S.

Sir,

Anti-malarial operations- Siruguppa taluk- Bellary District.

While enclosing proceedings on the subject of anti-malarial operations in Siruguppa and Desanur I urge Government not to drop them on financial considerations. The expense is small, the danger great. The recent census shows a drop in the population of Siruguppa from 6129 to 5773, of Desanur from 1460 to 1043. There are already not enough labourers to till the rich lands of Desanur. Human life and health cannot be weighed against money, but even from the economic point of view it is bad finance to allow the best land in this district to go out of cultivation. Even from the narrowest financial standpoint the investment of a few thousands, if it removes or reduces malaria, will pay the Government handsomely. They are spending Rs 854 a month in malaria allowances to their officers at Siruguppa. This represents the interest on 2 lakhs of rupees. I trust the Government will reconsider any orders they may have passed postponing expenditure on anti-malarial measures in Siruguppa and Desanur and make provision in next year's budget.

A.S.N./14-8-31.

COLLECTOR.

Proceedings of the Collector, Bellary.

A.L.A.C. Galletti Esq., M.A., I.C.S.,

Ref. C. 3473/31 B.5 Dated 13.8.31

Read:--

G.O.No.Mis. 223[illegible] dated 25.10.1928.

Anti-malarial operations at Siruguppa and Desanur.

2. President District Board's letter 1244/31 dated 27.7.31.

Inspected Desanur and Siruguppa.

O R D E R

Improvement of Irrigation channels. The Government called for an estimate of the cost of keeping the irrigation channels in a more sanitary condition. The Executive Engineer, is requested to send the undersigned a copy of the estimate and to state whether funds have been provided in the budget.

2. Removing village sites to high ground. A start has been made in Desanur island where Mr. RamaReddi has, at a cost of Rs.9000, constructed a well on the high ground and collected stone for 1. his own ouse, 2 a school 3. a choultry. The rest of the inhabitants are too poor to shift unaided. The Deputy Registrar of Co-operative Societies, Bellary, is requested to form a co-operative building society. A plan is essential. The Director of Town Planning will be requested to draw up a plan for a village of 1000 habitants on 30 acres of high, dry grass land, in the middle of an island. Sites may be provided for a school and a choultry. The temple will not be shifted from the old village.

3. Wet cultivation in Siruguppa. There is a wet field S.No. 676 and part of S.No. 675 encroached upon) south of Siruguppa between the market and the houses. Part of this is encroachment. The occupant will be evicted in due course from the area he has encroached upon and meanwhile penalised. The Union is prepared to acquire S.No. 676. It should also systemise the drainage channel which at present supplies --

water to this field and then enters the D.P.W. channel. The D.P.W. should raise the hight of their culvert by which it enters their channel. The water stagnating in this field and in and around the channel is an extensive breeding ground for mosquitoes. It is a most urgent matter to set this water under control.

4. Funds. The Union is doing its best. It has raised its remunerative enterprises income from Rs.1341 gradually to Rs.3380 in the last 10 years and spends what it can on removing pits etc. A Union which is showing such good will deserve assistance from the Taluk Board, District Board and Government. Government may well 1. improve the irrigation channels 2. take over the dispensary 3. make a free grant of quinine 4. make a small recurring grant to the panchayat for anti malarial operations.

PART II SCHEMES FOR 1931-32 -- lists at (T)&(Y).

Please see the Finance note on p.2 ante.

The following remarks are called for:-

Reserved

Discretionary grants for anti-malarial operations in the Vizagapatam and Ganjam agencies .. Rs.4,800/-

This sum of Rs.4,800/- ~~provides for~~ includes an additional allotment of Rs.2,800/- for carrying out the scheme of anti-malarial operations adopted for the Vizagapatam Agency for a period of five years from 1-4-1931. The increase proposed was Rs.5,000 but it was limited to Rs.2,300/- in view of ~~the~~ financial stringency. It does not seem necessary to restrict it still further. The balance of the provision of Rs.4,800/-, Viz., Rs.2,500/- is for carrying out simple anti-malarial measures during 1931-32 in G. Udayagiri (taluk head-quarters). As the amount is small and non-recurring it does not seem necessary to reduce the allotment. The Agents have been informed of the budget provision and it is not known whether they have already incurred any expenditure out of the allotment. It does not seem necessary to instruct them not to draw further grants from the allotment.

The amount is very small the work is very necessary Extract to Revenue for remarks if any BR 22/2/31

Transferred.

(1) Employment of second class Health Officer in the Municipalities of Bodinayakanur, Hospet and Virudhunagar.

p 607 (Y)

This scheme involves recurring expenditure. Municipal Councils ordinarily do not employ of their own accord Health Officers to look after the sanitary administration within their areas. The D.P.H. has persuaded these councils to employ them as the health conditions in these municipalities required their employment as early as possible. The Govt. bear 3/4ths of the cost of these offices and 25 percent of the

cost

cost, together with the proportionate leave and pensionary contribution of these officers is recovered from the municipal councils. In the circumstances, it is not desirable to suspend or restrict this scheme.

get the D P Hs remarks in this · BN 24/7/31

(2) Employment of second class officers in the municipalities of Mayavaram, Mannargudi and Dindigul.-

It does not appear that the D.P.H. has till now posted officers to these municipalities. But in view of the remarks made against (1) above, it does not seem desirable to suspend the scheme. These schemes are not costly and towards their cost, partial recovery is made from local bodies. Further in the interests of the development of public health administration of this Presidency, employment of health officers in municipalities is essential.

P 8,892 (Y)

/ ditto BN 24/7/31

(3) Clearing the silt in the bed of the Bagavadi channel, trimming the slope, forming banks, etc.-

The anti-malarial operations mentioned above are to be carried out in Siruguppa taluk. Siruguppa taluk is a highly malarious area and it has recently been included in the list of unhealthy localities where allowances are permissible. It does not seem therefore necessary to suspend this scheme.

P. 11 (Y)

/ ditto BN 24/7/31

(4) Increase in the rate of fixed travelling allowance to Health Inspectors in the Agency.-

The recurring cost is only Rs.1,260/-. The scheme is the result of a general increase of fixed travelling allowance of Health Inspectors employed in the ordinary tracts and in the other special tracts which has been given effect to since 1928-29.

P. 13 (Y)

Retrenchment: Suspension of Part II Schemes - 1931-32

Dy. No 12-15 pm 27/7/31

Finance Deptt

In Continuation of ~~Finance~~ Circular memo No 19 B.G/0-1 dt 11.7.31 the D-P.H is informed that the present financial position makes it absolutely necessary that the expenditure on Part II schemes provided in the budget for 1931-32 should for the present be drastically curtailed. To this end the following suggestions have been made:-

(1) The operation of schemes which have already been introduced should, if possible, be suspended or restricted.

(2) Schemes relating to civil works should not be commenced.

and (3) other departmental schemes awaiting introduction should not be sanctioned.

The D.P.H is requested to state to what extent the above suggestions can be given effect to

to. So far as the schemes relating to this dept are concerned:

31. It is requested that the reference may be treated as specially urgent and a reply sent with the least possible delay.

PART II SCHEMES FOR 1931-32.

Suspension.

PUBLIC HEALTH.

In this file, the L.S.G deptt. has examined the question of the suspension of four Part II schemes for 1931-32. They are:--

page 1 above

(1) Discretionary grants for anti-malarial operations in the Vizagapatam and Ganjam Agencies.

Ultimate Cost. Rs.	Cost in 1931-32. Rs.
4,800	4,800

Note for the Fin Committee at page 2 of flag (T)

The amount is intended to enable the Agent to the Governor in Ganjam to carry out simple anti-malarial measures in G. Udayagiri (Rs. 2,500) and to enable the Agent in Vizagapatam to continue some experimental anti-malarial measures in Gudem and Koraput at a cost of Rs. 2,300 in addition to the sum of Rs. 10,000 allotted annually for the purpose. Though the Director of Public Health has recommended the measures, the expenditure is provided under 22. Genl. Administration - Discretionary grants and is incurred by the Agents concerned. The L.S.G deptt. say that the Agents have been informed of the allotments and that it is not necessary to instruct them not to spend them as the amounts are small and non-recurring and the works are very necessary. The Revenue deptt. agree with the L.S.G deptt.

page 1 above

page 6 above

Submit that the amounts are neither small nor non-recurring. Including the usual allotment of Rs. 10,000, it amounts to Rs. 12,300 for Vizagapatam Agency and Rs. 2,500 for Ganjam Agency. The measures are experimental and were launched upon when the financial prospects were brighter than they

* K ... page 2 (T)

* K on page 2 (T)

are now. If they are successful (and this can be found out only after several years' experiments) they will have to be adopted on a more extensive scale at vastly increased cost if the money spent on experiments is not to prove useless. It is not likely that it will be possible to find the usual allotments next year and much less to increase it. It is therefore desirable to discontinue the measures for the present.

In this connection it should be observed that the Revenue Deptt. ordered in July the stoppage of further expenditure out of discretionary grants and the surrender of savings. The Board has reported that the Vizagapatam Agent has sanctioned the staff for 5 years out of the annual allotment of Rs. 10,000 and recommends its continuance with the addition of Rs. 2,300 sanctioned in 1931-32. The question of retention of the former amount will be examined when the relevant file is received. But its expansion with the addition of Rs. 2,300 may be stopped. The Board has reported that no portion of the Rs. 2,500 placed at the Ganjam Agent's disposal has been utilised yet. That amount may be withdrawn.

To conclude, Finance may advise the withdrawal of the whole amount of Rs. 4,800 provided in Part II without prejudice to the decision that may be arrived at in regard to the Part I allotment of Rs. 10,000 for the Vizagapatam Agency.

Fds under separate
[illegible]

Further Notes by the L.S.G. dept

Finance advise that the additional sum of Rs. 2,300 provided with effect from the current year as a Part II Scheme for 1931-32 for anti-malarial operations in the Vizag. agency may be withdrawn. The Board of Revenue have recommended and this dept. have supported the recommendation that the entire provision of Rs. 12,300 should stand. Please see also the recommendation of the Retrenchment Committee at flag $. The Committee have recommended modification in the staff for anti-malarial operations and are not for suspension of anti malarial operations in the Agency tracts.

As regards anti malarial operations at G. Udayagiri (Ganjam) the ~~A~~ Agent has already surrendered Rs. 2,000 out of Rs. 2,500 provided

B.K. 17.8.31

Finance Dept.

The Retrenchment Committee's recommendation at A on p. 2 of ($) seems to relate to expenditure debitable

debitable to 33 Public Health and not to the expenditure debitable to 22. Genl. Admn. Discretionary grants. The Committee's recommendation aims at reducing expenditure and entrusting the work to the Health and Medical Staffs in the Agency tracts. The question of continuing the work now the Agents has not apparently been considered by the Committee. In view of the fact that the Ganjam Agent has given up Rs. 2,000 out of Rs. 2,500 provided, Finance may adhere to the advice already given that the amount of Rs. 2,300 provided in Part II for Vizag. may be withdrawn.

14.9.31

(2) Employment of second class Health Officers in Bodinayakanur, Hospet, Virudhunagar, Mayavaram, Mannargudi and Dindigul Municipalities.

	Ultimate Cost. Rs.	Cost in 1931-32. Rs.
(a) Health Officers for Bodinayakanur, Hospet and Virudhunagar	9,000	3,300
Deduct contribution from Municipalities.	-2,250	2,062
Net cost to Govt.	6,750	1,238

The expenditure incurred by Govt. is the actual pay drawn by the health officers minus recoveries from the municipalities at 25 per cent of the average pay and proportionate leave and pensionary contribution at 25 per cent thereof.

These three Health Officers have been continuously in employment from 1st September, 1st October and 15th October 1930 respectively and the L.S.G. deptt. deprecate their abolition. As the net cost to Govt. is only Rs. 1,238 in 1931-32 these three posts may be allowed to stand.

(b)	Ultimate Cost Recurring	Cost in 1931-32. Recurring. (from 1st May 1931
Health Officers for Mayavaram, Mannargudi and Dindigul	9,000	3,000
Deduct contribution from Municipalities	- 2,250	- 1,875
Net Cost to Govt.	6,750	1,125

The incidence of cost is exactly similar to that in the scheme immediately preceding. The appointments were to have been made from 1st May, but the L.S.G. deptt. are not sure that the officers have already been posted. L.S.G. deprecate their abolition. As the net cost to Govt. is trifling, the L.S.G. Deptt. may be

allowed to have their way. But that deptt. may be requested to ascertain from the D.P.H whether the appointments were made from 1st May and if not, to ask him to surrender the savings consequent on the delay.

Cs 4.8.31

4/8/31

S.

4 F

Further remarks by the L.S.G. deptt p 16 infra

The D.P.H. states that the appointments of Municipal Health officers, Dindigul Mannargudi and Mayavaram have not yet been made. He can fill up these vacant posts hereafter only on a temporary basis – Vide G.O. 810 Pub. dt 5.8.31 p 6 ct

(D)

B.K. 19.8.31.

Finance (Budget)

In Oct. last, the posts for Mayavaram and Mannargudi were reported to be an 'urgent necessity' and "absolutely essential". In Dec. last, the Dindigul Municipality was reported to have agreed to an officer from 1st May 1931. All the 3 posts were expected to be filled on 1st. May. On 14th August the D.P.H reported that the matter was still under correspondence with the Chairmen of the Municipal Councils Concerned. This

p 8, (E)

p 9, (F)

p 6 ct

This shows that both the need necessity and urgency have been exaggerated. It is for consideration whether, in the circumstances, Finance may advise that the Scheme be suspended.

CS 26/8/31

I do not think that any inference as to the merits of the scheme can properly be drawn from the mere fact that there has been delay in giving effect to it.

You may request L.S.G. to ask the D.P.H. to surrender at once savings resulting from the failure to put this scheme into effect down to 1/10/31, and to report later on what further savings can be surrendered should there be any further delay beyond that date.

A

C.F. 28/8/31

Sec.

L.S.G. (P.H.) DEM

The D.P.H. may be addressed as at A above. A draft memo is sent for approval

(Letter sent for issue) AV 31/8/31

(3) Improvements to the Bagavadi Channel, Siruguppa taluk, Bellary district.

Ultimate Cost. Non-recurring Rs.	Cost in 1931-32. Non-recurring. Rs.
12,705	7,000

pp 11-12 ? (y)

The scheme is an anti-malarial measure to be executed by the Public Works (Irrigation) Dept. on behalf of the Public Health Dept.

pp 1-2 ?

The D.P.H is inclined to suspend the scheme if it has not already been commenced and has asked the Chief Engineer to let him know its present stage. The L.S.G deptt. agrees to its suspension. It is not likely that the Irrigation deptt. would have commenced it. Finance may advise its suspension even if anything has already been spent on it.

p 5 ante

In this connection it may be observed that a scheme for anti-malarial operations estimated to cost Rs. 14,000 was sanctioned in 1930-31 in Mopad but only Rs. 238 was spent in that year. Finance has advised its suspension.

L.S.G. have agreed to the suspension of this scheme also

V&L 4831

S Cr 4.8.31

HG 4.8.

p 1b infra

Further remarks by the L S G dept

Mr. Gallett

In regard to the anti-malarial operations in Siruguppa area, the Collector strongly urges that they should not be suspended as a retrenchment measure. The D. P. H. has already agreed to the suspension

suspension of the execution of the works. In the circumstances, it is for orders whether the proposal of the Collector may be supported.

Yes.
B. K. 19.8.31

Finance (Budget)

The anti-malarial operations in Singapore consists of 6 items, out of which four are under the Control of local boards and the Revenue Dept. One, namely the free distribution of quinine has been vetoed pending to be taken up only after the success of the measure in other selected areas has been established. The remaining measure is the one now under discussion:

There is no certainty that keeping the irrigation channels in a sanitary condition will eradicate malaria completely from the area and save a monthly expenditure of Rs 864 on unhealthy locality allowance now given to the officers there - vide "Z" on p. 7 C/F

p. 11 1/4 (c)

In view of the fact that

Mr.

the D. P. H. is agreeable to suspension of the scheme and that the similar scheme in Mofad area has been suspended Finance may adhere to the view already expressed suggesting the suspension of the present scheme also

CS
26.8.31

AG
31.8

LSG (P.H) Dept

It is for consideration whether the scheme may be suspended as advised by Finance.

See the Collector's letter page (Page 207).

He strongly urges that the scheme may not be given up. The total cost is 12705 & the provision this year is only 7000 Rs. It is a non-recurring item. In view of the large surrenders always made in PH and as the Collector is strong in favour of it, I press that this need not be resumed. The DD evidently did not

Cancel this collection.

(4) Enhancement of the fixed travelling allowance of 14 health Inspectors in the Agency tracts from Rs. 30 to Rs. 37½.

Ultimate cost.	Cost in 1931-32.
Recurring. Rs.	Recurring. Rs.
1,260	1,150

The enhancement is to bring these health inspectors in line with those serving in special tracts in Malabar and South Kanara. The L.S.G and Revenue deptts. would, for this reason, allowed the scheme to go on.

The Retrenchment Committee has recommended the reduction of fixed travelling allowance by a uniform percentage of 12½. If the Govt. accept this recommendation, there will be an automatic saving of about Rs. 760 per annum on account of the health inspectors in the Agency tracts. If the reduction is given effect to from 1st September the saving in 1931-32 will be Rs. 380 or Rs.400 roundly.

The L.S.G. deptt. may be requested to instruct the D.P.H to surrender the saving if the reduction is given effect to.

Malaria: Sirugappa area. (Bellary). Antimalaria operations - Suspension not approved

Grdr No. 2337 PH dt 4/12/31

Mrs.

In connection with the necessity to restrict expenditure in Part II schemes provided in the budget for 1931-32 ~~in view of the present financial stringency~~, the DPH has proposed that the execution of the scheme of anti-malarial measures in Sirugappa area approved in Govt. No. 715 P.H dt 20.4.31 may be suspended. The

Recd at 9 a.m.

Collector, Bellary however is strongly opposed to the postponement of the expenditure of Rs 7,000 provided in the current year's budget for these antimalarial measures. In the circumstances stated by the Collr, the Govt direct that the execution of the Scheme should be commenced immediately.
